Practicum Training Institute

Practicum Training Institute realized six years ago the importance of providing practical, hands on training to those interested in the mobile and heavy equipment operating industry.

Practicum has made a huge impact in the industry based on our high standards of training and believing safety is a paramount for success.

Practicum's 240 Hour Pre-Employment Heavy Equipment Operator Course is designed to safely and effectively introduce students to the heavy equipment operating industry. Students are placed in controlled environments to gain valuable hands on training and experience first hand what a typical work day is like in the industry.

Practicum is registered as a Category I Private Vocational School with Sask Learning. Our courses and team of qualified instructors are also registered through Sask Learning. Our certificates are nationally recognized.

Practicum also provides customized courses to accommodate your specific corporate or individual training needs. Our mobile training trailer offers the convenience of bringing the training to you.

All our courses are compliant with Occupational Health & Safety standards. ♦
